COMBINA

GLOBAL

We are your strategic building materials partner, specializing in high-quality products and materials through our trusted global manufacturing facilities. Through Combina Global, you will receive the high volume savings of the global market with the simplicity of a local supplier. We are your one-stop shop.

CABINET LAYER COMPOSITION

| MELAMINE (TFL)

Melamine Decorative
Panel Paper

Different types of
texture/finish

MDF

ADVANTAGES

- Durable and scratch-resistant
- Heat-resistant and suitable for use in high-temperature environments
- Easy to clean and maintain
- A lightweight material and easy to handle
- Cost-effective compared to other alternatives
- It is versatile and can be molded into various shapes and designs
- Chemically resistant, making it useful in laboratory settings

*Before finalizing your choice, please confirm the texture and finish of the color with Combina Global.
The effects of Melamine/HPL are dependent on the actual Melamine/HPL sample or color board.

| THERMOFOIL/VINYL

ADVANTAGES

- Budget-friendly option
- Available in a variety of colors and patterns
- Easy to clean and maintain
- Made from recyclable PVC and has a low-waste manufacturing process
- Moisture-resistant, making it ideal for high-humidity areas

| HIGH PRESSURE LAMINATE (HPL)

ADVANTAGES

- Durable and versatile material
- Available in various designs, patterns, and colors
- Easy to maintain, cost-effective, and environmentally friendly
- Ideal for high-traffic areas
- Resistant to scratches, impact, heat, and stains
- Made from recycled materials that can be recycled again at the end of its life

| POLYURETHANE TEREPHTHALATE (PET)

45mm PET laminate

1.3mm PVC edge branding with matching color

0.71 inch medium density fibre board

0.02 mm white melamine laminate

PRODUCT INFORMATION

PET door is made of 3/4" (19mm) thick MDF board, with PET laminate on the exterior and melamine laminate on the interior, ABS banding of matching color on all edges. PET film coating uses imported raw materials and colorants, which comply with the US FDA food contact certification and medical biological testing standards, making it safer and healthier.

| LACQUER

2 times surface PU Painting in the color you picked

2 times of UV color coated paint as bottom painting

1 times UV transparent coated paint for moisture-proof

The surface will stick white melamine gloss paper to make the surface smooth

ADVANTAGES

- Durable and can withstand wear and tear
- High-gloss finish that enhances the natural beauty of the material
- Ideal for use in high-humidity environments or in areas where the finished product may come into contact with water
- Resistant to moisture
- Can be applied using a variety of methods, including spraying, brushing, or dipping
- Provides some degree of protection against UV radiation

*Before finalizing your choice, please confirm the texture and finish of the color with Combina Global.
The effects of Lacquer are dependent on the actual Lacquer sample or color board.

CABINET DOOR STYLES

*All door panels feature an 18 mm thickness.

| THERMOFOIL / VINYL

Available in High-Gloss or Matte finishes, Thermofoil cabinet doors are durable and low maintenance, ideal for both kitchen and vanity cabinets. They offer the look of painted or laminated cabinetry, creating a uniform, smooth surface with no color variation or streaks. The thermofoil layer, made of vinyl, forms a seamless, non-porous surface that doesn't trap dirt, keeping the doors looking great and easy to clean.

HIGH PRESSURE LAMINATE (HPL)

HPL is a durable material that securely adheres to wood without peeling, resulting in a longer-lasting product with a high-end appearance. It is one of the best materials for kitchen and vanity cabinet doors. HPL offers a cost-effective alternative for projects requiring a premium look. With a wide variety of wood-grain designs and solid colors, it's easy to match the many styles and trends of today.

POLYURETHANE TEREPHTHALATE (PET)

PET finishes offer a sleek, modern aesthetic that adds a touch of elegance to any space, including kitchen and vanity cabinets. Crafted with precision and attention to detail, these finishes are designed to withstand daily wear, resisting scratches, stains, and heat, to ensure the surfaces maintain their beauty for years to come.

| LACQUER

Lacquer-finish cabinets bring a true sense of refined luxury to any space, including kitchens and vanities. With the option of a matte or glossy finish, lacquer provides a smooth, elegant texture, either soft without shine or richly reflective. It's an ideal choice for those seeking a combination of high-end aesthetics and long-lasting durability.

HONEYCOMB BLINDS

| PRODUCT FEATURES

Designed with a honeycomb structure, these blinds offer strong insulation, UV protection, and sound absorption, ideal for keeping living spaces comfortable and energy-efficient. They come in two options: a single-fabric style for consistent light control, and a Day & Night option that lets tenants switch between light-filtering and blackout. Both are durable, easy to use, and well-suited for long-term project installations.
